COLLECTION

SPRING & SUMMER 2024

A textile world that invites to elegant dining experiences, interesting conversations and quality time with family and friends.

In today's troubled world with the challenges we face, I want to surround myself with colors that make me happy and hopeful. For Spring & Summer 2024 I found inspiration in the 90's color palette, with vibrant colors that stand out. I hope this collection will inspire lively meetings in beautiful surroundings. The prints and colors express my longing for lazy summer days, sandy beaches, blue seas, and colorful flowers. As well as the long summer nights and dinner parties with friends and family.

Chamois has always been associated with a beautifully set table, however over the years we have developed an extensive line of textiles that includes cushion covers, throws and blankets, lampshades, bed sets, toiletry bags, as well as a lifestyle range with clothing and accessories.

This season we introduce a new style of napkins with a decorative border and quilted placemats. In our collection of prints we introduce two new colorways in Pomegranate this season, beige with leaf green details and a lovely turquoise with details in lavender. We also introduce the popular prints Margerita and Medallion in two new colors, a greenish olive yellow and bright summer red. These new colors perfectly compliment and bring out our signature navy and light blue textiles.

We always encourage our customers to mix and match colors and prints freely, to dare to be creative, playful and challenge the norm. This is when new exciting meetings take place, and new ideas come forth. We want to believe that in our range there is always something beautiful for the creative decorator!

A TABLECLOTH IS MADE

The Ancient Art of Woodblock Printing

Colors are blended by hand and compared to Pantone book to get the right color matching.

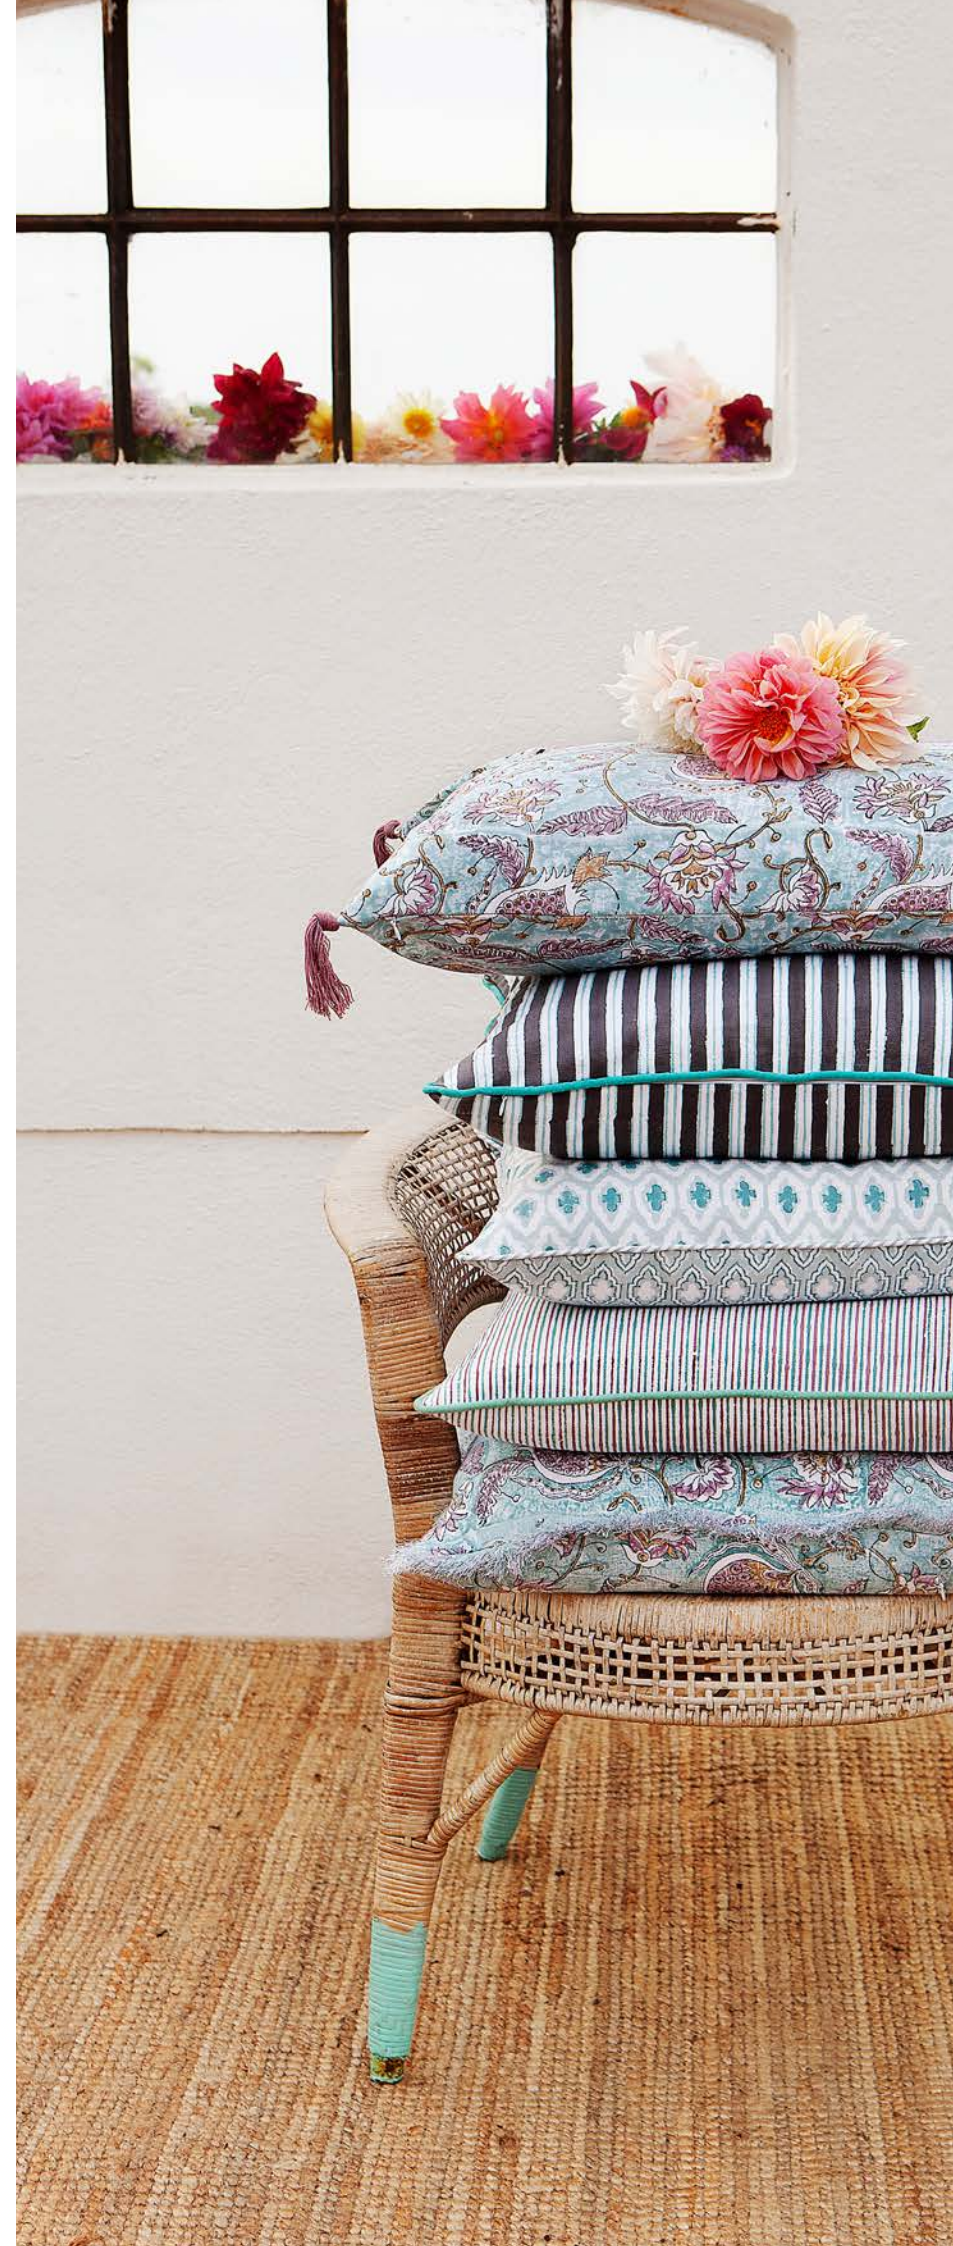

*We are proud to preserve this ancient craft and
bring it into modern homes.*

Most of Chamois textiles are handprinted using the ancient woodblock printing technique. We develop our prints in collaboration with local artisans and family run businesses. The whole process is made by hand from cutting of the woodblocks and blending the colors to printing each textile. The process is gentle on the environment, use very little water and electricity.

This genuine handmade process makes every textile unique. Slight variations in color and print is the beauty of a genuine hand woodblock printed product.

In a world increasingly filled with faced paced consumer products, we are proud to preserve this ancient handicraft and bring it into modern homes worldwide.
